Conditions

Specific Conditions

| Sr.No. | Condition Heading | Condition Details | Status of Compliance, Remarks / Reason and Supporting Documents | | | |
|--------|---|--|---|---|----------|-----------------------------|
| 1 | MISCELLANEOUS | The landing jetty for the mooring of ferry crafts which facilitates transport of Shiyalbet Islanders to/from the Shiyalbet Island shall be upgraded with proper connectivity as committed. | PPs Submission | Existing facility upgraded with concrete road facility, up to the jetty. External Paved Road of GPPL is also being used by the Villagers. Roads and landing jetty for Shiyalbet was damaged due to cyclone Tauktae, and the repairing works along with bund protection strengthening and widening of Roads are completed. Maintenance of this road is being taken by Gujarat Pipavav Port Limited on regular basis. | Complied | 27-11-2025 Attachment:NA |
| 2 | AIR QUALITY MONITORING AND PRESERVATION | The coal shall be stored only in designated stock yard with dust control measures viz. wind screen of height at least 2 ft above the of coal stock, made of fabric/HDPE, water sprinkler assignment, green belt of at least three layers | PPs Submission | Complied. Due to low volume in coal operation, it has been decided by Management of Gujarat Pipavav Port Limited to stop discharge operation of coal at jetty till further notice since October 2023. Major Steps Taken- Coal has been stored in dedicated, designed COAL YARD. WATER CURTAIN has been installed on windward side of yard, which blanket the | | |

| | | | | | |
|---|-----------|---|---|---|---|
| | | | of suitable trees and scrubs. Use of creepers should also be explored in consultation with the Forest Department. | | area with very fine water spray. The yard is encircled by three meters high chain link fence with synthetic mesh all around the Coal yard and with three levels tree plantations. Creepers has also planted to make green canopy on the chain link fencing. Mist Canon type fogging system is operational to mitigate the chance of fugitive emissions. Three layer Green Belt development in coal yard completed which was damaged by cyclone Taukate. Gap fillings of the plantation carried out on regular basis. Coal water Recirculation system is in place. RCC roads provided in all over the coal handling area. Stockpile height of the coal is restricted up to 5 meters only. Internal road sweeping is done by mechanized dust sweeping machines and through manual basis on day-to-day operation. Complied 27-11-2025 Attachment:NA |
| 3 | GREENBELT | The project Proponent shall provide additional plantation in the gaps to develop proper filter screen. (a) The entry and exit points for dumper trucks shall be suitably designed with loop in and loop out arrangement of traffic and a fabric mesh for acting as a filter | PPs Submission | Gap Filling and New Plantation/ sapling is being carried out on regular basis. Local villagers are engaged through local agency for green belt development works. GPPL has also established a site-specific nursery to cater the demand of plantation. Loop in and Loop Out Traffic Management is in practice and heavy penalty provision in port for the violation of traffic rules. Bus frequency increased for Shiyalbet Island residents. | |

| | | | | |
|---|--------------------------|--|----------------|--|
| | | barrier for coal dust. (b) Bus frequency for Shiyalbet Island residents should be increased during peak hours so as to reduce the waiting time to 10 minutes. | | Being Complied 27-11-2025 Attachment:NA |
| 4 | Human Health Environment | The vehicle used for coal transportation to M/s. UltraTech Cement Ltd. at Jaffarabad shall be properly covered to prevent dust pollution. | PPs Submission | All the raw material transportation out -side of port premises is being done only through covered trucks/ dumpers. Dedicated Safe Truck tarpaulin covering area is in place for covering the truck with tarpaulin. Currently coal handling is suspended by the management of GPPL due to low volume since October 2023. Being Complied 27-11-2025 Attachment:NA |
| 5 | WASTE MANAGEMENT | 16.5 Mcum dredged material out of total 18 Mcum is proposed to be utilized for reclamation purpose in port development. The rest shall be disposed of shore at the site suggested by NIOT. | PPs Submission | Noted for Compliance. Capital Dredging 1,11,941 CUM done. Maintenance Dredging undertaken every 1.5 to 2 years (758339.75 CUM of Maintenance dredging carried out since 2012. Expected to be carried out every 1.5 years.) Being Complied 27-11-2025 Attachment:NA |

6

AIR QUALITY
MONITORING
AND
PRESERVATION

PP shall adopt closed conveyer coal transport to the proposed power plants in the vicinity.

PPs Submission

Noted for future Compliance. At present no such facility has been set up in the immediate vicinity of the port.
Agreed to Comply

| | | before disposal/using it for reclamation to ensure its suitability and prevent any likely impact. | | 27-11-2025 Attachment:NA |
| 9 | WATER QUALITY MONITORING AND PRESERVATION | The storm water management shall be put in place before the commencement of the activities. Storm management report with technical details shall be submitted to RO of MoEF&CC within six months. | PPs Submission | The Concept report prepared and submitted to RO of MoEFCC, DoEF, CPCB and GPCB, vide letter no. APMT/ENV-44/3966, dated 23/11/12 and APMT/ENV-54/5269, dated 30/01/13. A pond is constructed with HDPE lining to collect the surface water/rainwater and further its treatment if required, through Reverse Osmosis Plant. Treated water is being utilize for green belt development. Being Complied 27-11-2025 Attachment:NA |
| 10 | Marine/Coastal | The proponent shall provide minimum 100 meters buffer from the mangroves. The existing mangroves shall be documented with latest satellite map and shall be submitted to RO, MoEF&CC for compliance verification purpose. | PPs Submission | 100 meters of buffer from mangroves is maintained. Documentation of existing Mangroves along with provision for maintaining 100 meters buffer are being maintained and report submitted to MoEFCC and GPCB, vide letter no. APMT/ENV-54/5269, dated 30/01/13. As per EC 2015 and MoEFCC officials visit- GPPL port has maintained 85 acre of mangroves belt in the port area against the requirement of 60 acre as per EC 2007. In addition to this, 500 Ha and 100 Ha Mangroves plantation has been carried out at Surat and Bharuch area with the help of Gujarat Ecological Commission. Some patches of Mangroves within port area were damaged during |

| | | | | |
|--|--|--|--|--|
| | | | | cyclone. GPPL awarded a contract to Gujarat Institute of Desert Ecology- Kutch, for the finding the causes of Mangroves damage and way forward for its restoration. Report submitted to regional office of GPCB and GPPL is working on the recommendations given in the report. Vendor appointed for the restoration of the Mangroves and the activities started at the site as per GUIDE-Kutch recommendations. Cutting of degraded Mangroves and water flow arrangements and 1800 sapling planted last year and with more than 80 percent survival ratio. In Oct-25 we have planted more than 18000 saplings. Protection Measures such as restricted entry regular surveillance and watch on inflow and outflow of water have resulted in overall growth of mangroves within this area. AIR QUALITY MONITORING AND PRESERVATION

The dry cargo shall be unloaded into hopper and from hopper it will be taken through closed conveyor system to the storage yards.

PPs Submission

Current closed conveyer is under structural integrity review and during the cyclone conveyor system has also suffered damaged and cannot be made operational till such time. Coal unloading is done through hopper with mechanical open and close system which delivers the cargo to dumpers. No coal dumping carried out on jetty complete operation is through hoppers. Due to low volume in coal operation, it has been decided by Management of Gujarat Pipavav Port Limited stop discharge operation of coal at jetty till further notice since October 2023.
