BILL OF QUANTITY (BoQ)

PREAMBLE

BILL OF QUANTITY

Rates and Prices Generally

1. The rates and prices tendered in the priced Bill of Quantities shall, except insofar as it is otherwise provided under the Contract, include all equipment, labour, supervision, materials (including all costs in connection therewith such as haulage, handling, storage and wastage), supply and installation, erection, third party testing & inspection, mining royalties, remedying of defects, protection of works, insurance, overheads, profit, together with all general risks, liabilities and obligations, import duties, all taxes imposed by local/state/central government authorities (Except GST only), duties, cess, Labour cess, BOCW taxes, inspection & test fee, license fees and the like set out or implied in the Contract. The item descriptions are deemed to cover all of the works indicated on the Drawings and the Contractor shall ensure that his rates account for this.
2. The Bill of Quantities shall be read in conjunction with the Conditions of Contract, Specification and Drawings. Item descriptions in the Bill of Quantities serve to identify particular components of the Works but do not necessarily describe all the operations needed to produce them.
3. The Contractor will be requested to provide quantities and rates for the assessment of interim payments and the valuation of variations. The extent of work is shown on the Drawings and described in the Specification.
4. The items listed in the Bill of Quantities shall, taken together, be deemed to cover compliance with all the provisions of the Contract and all the operations needed to execute the works described in the Drawings and other documents issued for construction purposes.
5. The quantities set out in the Bill of Quantities are re-measurable quantities and subject to pre and post excavation surveys and are not to be taken as the actual and correct or commitment quantities of the work. The quantities set out in the Bill of Quantities provisional quantities which may vary by any extent plus or minus. No claim whatsoever shall be admissible on account of variations in quantities set out in the Bill of Quantities.
6. A rate or price shall be entered against each item in the priced Bill of Quantities, whether quantities are stated or not. The cost of items against which the Contractor has failed to enter a rate or price shall be deemed to be covered by other Rates and Prices entered in the Bill of Quantities.
7. Should there be any details of construction or materials which have not been referred to in the Specification or in the Bill of Quantities and Drawings, but the necessity for which may reasonably be implied or inferred there from, or which are usual or essential to the completion of all works in all trades, the same shall be deemed to be included in the Rates and Prices tendered in the Bill of Quantities. The Rates and Prices shall also be deemed to include for delays caused by one trade to another.
8. The whole cost of complying with the provisions of the Contract shall be included in the items provided in the priced Bill of Quantities.

9. General directions, descriptions of work and materials are not necessarily repeated nor summarized in the Bill of Quantities. Reference to the relevant sections of the Contract documentation shall be deemed to have been made before entering prices against each item in the priced Bill of Quantities.
10. The whole cost of tests, test results and certificates, inspections, trials and commissioning procedures, the provision and storage of samples and the carrying out of surveys and setting out required by the Specification shall be deemed to be included in the rates for work to which the tests relate unless itemized separately.
11. The whole cost of temporary works and operations related to phased possessions and handover shall be deemed to be included in the Rates and Prices.
12. The rates quoted shall be firm and no price variation on account of fluctuation in cost of materials, labour, etc. will be allowed during the course of the Contract.
13. Items to be priced as a lump sum shall include all works specified or implied to achieve a complete working system in accordance with the standards, specifications, drawings and local regulations.
14. The rates shall take into account the necessity for the Contractor to provide his own power and water supply, transportation, messing, accommodation and other facilities necessary for the successful execution of the Works. The rates shall also include for all necessary supervision, safety requirements, environmental requirements, security and the like required to perform the work in accordance with the Documents and in a professional and workmanlike manner.
15. There will be no payments for over-excavation material either in the vertical or the horizontal plane unless instructed otherwise by the Engineer.
16. If the contractor failed to excavate the required depth in particular section/area or if any patches have been left out. There will also be no payment for such whole area/section wherein the contractor has failed to achieve the required depth.
